

Goldtouch Trident Mini Keyboard

The X211 is an adaptation of the connectivity versatility of the X231 in a travel-sized package. It features the convenience of 2.4G wireless, two Bluetooth channels, and USB wired connectivity. This is particularly great for those who work at smaller desks, shared spaces, and individuals who prefer an optimal reach that allows them to keep their body centered while keyboarding.

Specs

Model No.	KB-X211
Type	2.4G+2 Channel BT+USB
Number of keys	78
