Goldtouch Trident
Standard Keyboard

If you tend to work with a Windows laptop, a Mac, and a second computer or device, the Trident Standard Keyboard is made with the purpose of allowing you to get work done easily with no need to juggle multiple keyboards. This is a full-size keyboard with a low profile, which can be connected with 2.4G wireless, Bluetooth Channel 1, or Bluetooth Channel 2, and USB connections. It is rechargeable with status lights, allowing you to easily check which connection mode is currently in use.
